

Brose Changchun continues commitment to child welfare

Yin Shixian (left, General Manager Brose Changchun Plant) together with plant representatives paid a visit to the local Child welfare home.

Changchun (23. June 2017) In June, representatives from Brose Changchun came to the Changchun Child Welfare Home and sent festival greetings to the kids. The plant has been sponsoring the local Child Welfare Home for over ten years.

This year, Changchun plant has donated rehabilitation equipment such as creeping holders, kid's dumbbells and gym mats. The representatives helped check the installation in the children's rehabilitation rooms, classrooms and playrooms. During the past 11 years, the plant has been sponsoring Changchun Child Welfare Home with various necessities including furniture, toys and air-conditioning.

"We highly appreciate the donations from Brose Changchun plant in the past eleven years. We cherish such sustainable, valuable and charitable cooperation. Thanks to its continuous contribution, kids here enjoy and grow in a harmonious environment," commented Su Huiyuan, Vice President Changchun Child Welfare Home.

"As a member of the family-owned Brose Group, we feel obligated to play an active part in shaping our social environment. We will continue our effort to support disadvantaged children and create a superior living and studying atmosphere for them," said Yin Shixian, General Manager Brose Changchun.

About Brose Group

Brose is the world's fifth-largest family-owned automotive supplier. The company develops and produces mechatronic systems for vehicle doors and seats as well as electric motors,

drives and electronics, among others for steering, brakes, transmissions and engine cooling. More than 25,000 employees at 60 locations in 23 countries generate turnover of 6.1 billion euros (44 billion rmb). Every second new vehicle worldwide is equipped with at least one Brose product.

About Brose China

Brose started its activities in the Chinese market in 1996 and has been growing ever since. Today, the mechatronic specialist is presented with 12 sites in six of China's most important automotive regions Shanghai, Beijing, Changchun, Chongqing, Wuhan and Guangzhou and has localized its entire product portfolio as well as its research and development competence in the country. The company employs around 3.900 people in China and generated a turnover of approximately 1.2 billion euros (8.7 billion rmb) in 2016.
